Environmental Health responded to the facility following notification of a fire involving accumulated grease on cooking equipment (inside kitchen only). Upon arrival Fire Department had ~~extinguished~~ verified fire ^{is} extinguished fire and verified facility is safe for occupancy. The ANSUL fire suppression system was discharged and chemical residue is observed on some kitchen equipment including cooking equipment. Food exposed to chemicals ^{is} was voluntarily discarded.

An inspection was done to verify electrical, gas, and water was not interrupted. Only gas connections to kitchen cooking equipment was turned off.

Facility bar is permitted to remain open as it was not affected. Facility is instructed to destroy any and all additional food items found to be affected by fire or chemical. Clean residual chemical and accumulated grease from equipment. Ensure all equipment is in good working order. Service ANSUL fire suppression system. Facility is not permitted to use cooking equipment or prepare food until a re-inspection is done by
